STATE OF MAINE.

LAND OFFICE,
BANGOR, May 1, 1858.

IN the discharge of my duty as "Agent to superintend and manage the sale and settlement of the Public Lands" of the State, the following notice is hereby given of the

Terms and Conditions of Sale:

In the United States of Maine, Chapter 5 may be found all the provisions of law in relation to

The Sale of Lands for Settlement.

Sec. 18. Out of townships located and designated for settlement, the Land Agent shall, from time to time, select, not exceeding ten in a year, such as shall be fit for sale in lots for settlement; and make a list of them, and of the township offered for sale and settlement in former years, in which lots still remain for sale, in some paper in the county or city, State in which any paper is published, once a week for three months, within six months after the selection is so made with the substance of so much of this chapter as relates to the terms and conditions of the sale and settlement of such lands.

Sec. 21. In townships so selected, in which suitable roads, have not been located, the Land Agent shall cause such roads to be located as the public interest and the accommodation of the future settlement require.

Sec. 23. The price of the settling lots shall be fifty cents per acre, for which the purchaser shall give three notes, payable in one, two and three years, in labor on the roads in said township, under the direction of the Land Agent. The Land Agent shall thereupon give him a certificate, stating that he has become a purchaser of the lot of land therein described, and that he will be entitled to a deed thereof when he complies with the requirements of law. The certificate of the person appointed by the Land Agent to superintend the laying out of the labor on the roads, shall be evidence of the payment of the notes—fifty acre lot, not exceed ng two hundred acres, shall be granted to the same person.

Sec. 28. Beside the payment of the notes, every such purchaser shall be required, within ten years from the date of his certificate, to establish his residence on his lot and within four years from such date to clear, on each lot, not less than five acres, from at least one half of which half he will mow down to grass; and to build a comfortable dwelling house on it.

Sec. 29. If the purchaser fails to perform any of the duties required of him, or to pay his notes, he forfeits all right in the land, and the Land Agent may dispose of it to another person.

Sec. 30. The Land Agent shall appoint some competent person or persons in the vicinity to superintend the location of settlers, the payment of the labor, and the performance of the previous duties.

Sec. 31. Whoever purchases a lot of wild land of the State, not exceeding one hundred and sixty acres, and complies with the conditions of the sale, may hold it with the improvements thereon free from attachment and levy on execution, while he remains in actual possession therein; the value so exempted shall not exceed one thousand dollars, to be set off to the owner in the portion of the lot as he directs, by the appraisers appointed to levy an execution, the same as real estate is set off and appraised on execution.

Sec. 32. On the decease of such purchaser, the land and the improvements shall descend to his children, subject to his widow's right of dower, and shall not be liable to be sold for the payment of his debts, except in case his other property is not sufficient for the payment thereof; and, in that case, his children shall have the occupancy and improvement thereof, subject to the widow's dower, until the youngest surviving child attains the age of eighteen years. The remainder of the estate, after the life estate of the widow, and after the youngest surviving child attains said age, may be sold as other estates of deceased persons for the payment of such debts as the other estate of the deceased is not sufficient to pay. If the widow dies without issue, such lot shall descend and be disposed of as any other property.

Sec. 33. No such purchaser, having a wife, or a country his and lot by deed, unless his wife joins therein, and acknowledges it to be her free act and deed, before a proper magistrate.

Sec. 34. The Land Agent may sell at public or private sale for such price as he considers fair and for the interest of the State, all tracts of land owned by the State on islands or in incorporated towns.

Under the provisions of this law, there have been already located and designated for settlement, and by former Land Agents selected and published for sale, the following townships, viz:

Townships.	Acres unsold.	Townships.	Acres unsold.
B. R. 7,	9,217	C. R. 4,	21,319

Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP—combination, and very different from any thing else in the market, and different from any other pump. It is durable, cheap, simple, and not liable to be out of order. It can raise water from a deep well and force it to any part of your building, and the same time, in case of fire or any other exigency, will throw water with or without the forcing part. Any people with a hose, hose can do all the repairing that it will need for many years, as it will last for ever. It is so easy to be put out so as to defy all to get it to freeze up like other pumps. It has received the first premium at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of J. B. MILLS, Exchange street, Bangor, where it will remain for a few weeks. Town rights for sale.

Otis' Lightning Rods.

☞ *The only Patent which affords absolute Protection against Lightning*, as demonstrated by science and experience.

This Rod has been extensively used thro' the Southern & Western States, West Indies and the Canadas, since 1851, and though it has been struck in hundreds of instances, it has never *failed to protect*.

The great amount of damage done recently by lightning, has called a testimony, and it should, to the interests of buildings by the use of Lightning Conductors. It is all important that the rod used should be one that will *give protection*, and in roofing buildings it should be done by one having experience in the business.

Mr. Meech, former partner of Mr. P. M. Kimball, now proprietor of the patent for Pennsylvania Co., has returned to this city to commence business for the coming season. Having had large experience, he assures the public that all his work of the kind will be done in a thorough, neat, and scientific manner.

☞ Samples of the Rod, and certificates of Merit from many of the most eminent scientific men in the country, may be seen at D. M. HIGHLY IMPORTANT DISCOVERY.

Fousel's Pabalum Vitæ

Has now assumed a position before the public as

THE ONLY REMEDY

yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints

The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most

ASTONISHING SUCCESS

in the treatment of the above complaints.

Its unabated popularity, numerous certificates of remarkable cures, the best recommendation of some of our most eminent physicians, and the analysis of Dr. A. Hayes, the State Assayer, all give overwhelming proofs of

THE UNRIVALLED VIRTUES

And Unquestioned Superiority

of this preparation to any other remedy now extant, and are constantly attracting to it a wider and more extensive reputation. Being a volatile nature, it affords vapors freely, and consequently is DIRECT IN ITS ACTION ON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations not prescribed by the physicians, by reason of the reckless manner with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation; the sweet smell of the pabalum is all sufficient, that this medicine is the most *perfectly safe, and free from all other distasteful ingredients*, but guarantees that it will cure all that it pretends to, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure

Consumption by using One or Six Bottles,
Bronchitis by using One to Three Bottles,
Coughs by using less than One Bottle,
Colds by using it Two to Six Days,
Bleeding of the Lungs by using less than One Bottle,
Hoarseness by using less than One Bottle,
Soreness of the Chest by using less than One Bottle.

Price $7 per bottle, accompanying Treatise.

THE CRYSTAL OIL LAMP,

For Burning the Crystal Oil,

Combining Economy and Safety!

PATENT RIGHTS

FOR STATES & COUNTIES FOR SALE.

This important invention of the present age is the result of the most earnest effort to the public. Much experiment and many failures were attended with before the proper means to destroy the friction and heating of the Crystal Oil Lamp, with the necessary and safe and adjustable Coupling. The Burner is attached to the wick tube, so that it can be lighted in the dark, and the flame is perfectly safe in all the positions. The oil used in the lamp is the best article of the most extraordinary and demonstrated. The Lamp is in the form the dangerous shell among the Kerosene, and the danger attending the use of burning fluid is found upon the right composition to produce.

As much LIGHT for ONE CENT as Kerosene will for Three Cents, or Burning Fluid will for Six Cents.

This saving five-sixths of the entire amount now expended, at the price of the lamp in about a month. They are adapted to all situations, making the cheapest and most desirable light for every place—the largest halls or churches as well as private dwellings. The patent on the lamp for the different States and Counties throughout the Union, with the exclusive sale of the Crystal Oil, is now offered to the public, presenting a rare opportunity for merchants to secure for themselves the monopoly of a trade entirely free from opposition. Facilities are completed for the manufacture of the lamps in such quantities that they will be furnished to the purchasers of rights in any style, at such a cost as will yield an almost incredulous profit. These rights will be closed off immediately, and the lamps and oil delivered as soon as desired. As no lamps or oil will be sold to any but purchasers of rights, all letters making the request will not be noticed. Communications addressed to the "Crystal Oil Lamp Co." No. 6, Merchants Row, will be promptly attended to.

SAM'L WASHBURN,
JOHN J. MOORE,

June 15 1858

"Thou Shalt Not Bear False Witness."

When the Bangor Union undertakes to quote the sentiments of the Whig upon a matter touching the nomination in our own party, it would be in accordance with common honesty to keep truth on its side and to quote its fairly and fully. Thus the Union of yesterday, in speaking of the arrangement to give the Republican Congressional nomination to Somerset this year, says that "the Whig commends Mr Washburn declining." The question is, how his (Mr Wash) friends can best ignore the contract and put him in nomination once more, *either with or without the consent of Somerset!*"

A more unmitigated falsehood than this was never uttered nor penned, and the Union knows it. In the article to which it alludes, we stated distinctly, over and over again,—that Mr Washburn's friends go for carrying out the agreement of 1856 in good faith,—*that they leave the matter entirely in the hands of the people of Somerset*—THAT Mr WASHBURN WILL NOT BE A CANDIDATE AGAINST THEIR WISHES—and that we shall be in favor to adhere the resolution of the agreement of 1856.

The Union has seen all these declarations—has read them all in our article of Friday last, and yet it has the boldness to attempt to make the people of Somerset believe that the Bangor Whig and Mr Washburn's friends really intend to make him a candidate either with or without the consent of Somerset.

The Union further says, "It is not with them Mr Washburn's friends—it is a question to be settled by the district and by the portion of it from which the representative is selected by a majority of the whole district, and even the whole State." And it then quotes our language thus

"For we do not think we consider the question of this or that man to be decisive if the people of Mr Washburn's has no claim—he has in any form as any claim to the nomination." The question, says the only question is "What will be for the best interest of the District, of the State, and of the Republican cause?"

But OMITS the words set following, viz—"in the view of the people of Somerset—FOR TO THEM WE HAVE AGREED TO LEAVE THE DECISION!" That is what we said, and what we now say. The question is "What will be for the best interest of the District, the State and the Republican cause, in the view of the people of Somerset, for to them we have agreed to leave the decision." Is there anything in this which proposes to violate agreements?

The attempt of the Union to falsify our position and our language, is the wicked attempt which we have seen made in any political paper of any party, for reckless of honor and truth it may have been, it has been so uncalled for intermeddling. It is a deliberate, downright, unmitigated violation of truth,—administering no excuse and no palliation. The paper which will thus for a base political purpose, deliberately and totally misrepresents and falsifies the language and position of an opponent, shows how worthy it is of being the organ and mouthpiece of a corrupt and reckless party and administration.

We call upon the Bangor Union to RETRACT its assertion that we desire to ignore the contract, and put Mr Washburn in nomination, either with or without the consent of Somerset." We call upon the Union to give it entirely, both in its daily and weekly issues, the language that we did use relative to the nomination, as follows:

The agreement of 1856 was made—and since it was made we will be the last to advise its violation. But we believe that if the nomination is left entirely to the people of Somerset—free and untrammelled, to choose whomever they may desire from the whole district, the agreement will have been carried out in good faith. If they wish that Mr Washburn shall specially represent and be taken from the Somerset portion of the District, and shall so decide, we have nothing to say, except that we will cheerfully support the candidate. But they may decide, as the people throughout the District and the State do desire—and we say it without derogation from the abilities of any gentleman in competition—they may decide, we say, to retain the advantage and the strength which the great experience and acknowledged talents of Mr. Washburn have conferred upon the District and the State, in its Congressional representation. And in this view of the case, we hold that Mr W. would not be acting in the line of his duty if he should absolutely refuse to be a candidate under any circumstances. That he will not be a candidate against the wishes of the people of Somerset, we may safely say.

In regard to this resolution, we consider the claims of the district to be out of the question. Mr Washburn has no claim—no more do any section claim to be nominated. The question, and the only question, is, "What will be for the best interest of the District, of the State, and of the Republican cause?"—in the view of the people of Somerset, for to them we have agreed to leave the decision." No individual has a right to step forward and say "My claims to a seat in Congress are paramount to all others."

If the Union refuses to make the correction, it must stand convicted of being the most dishonorable false witness and will be manifestly unworthy of a position among respectable journals.

The Sixth Congressional District.

There is to be a strong contest in the Sixth Congressional District, where the Democracy have already nominated Mr Jones of Bucksport. This early nomination of their most able and most popular man, is a fair notice and challenge to the Republicans that the Democratic money and strength of the State are to be concentrated and used for success in this district. The administration men will all go for him, and he is hailed by them as the Douglas Democracy, in view of his being removed from the collectorship, will look upon him as their pet and leader. Now it is well known to this city that Bradbury's nomination was all arranged for, by Buchanan's office he dare, at least a month before the State Convention! They openly boasted that "*Bora has been up! Ask anybody how to Buchanan, and we shall nominate Bora for Congress!*" This is not the first time that he has had pressing business at court," which compelled him to leave his friends in the lurch when party votes were important to them. His election would be heralded from the St. Croix to the Rio Argento, as a full endorsement of Buchanan, the Lecompton fraud, and all—*ready to the repose of a Fishing Business!* Do the voters of the Sixth District wish to be so recorded?

THE NEW YORK REPUBLICAN CONVENTION.—From the wording of the recent telegraphic despatch relative to the decision of the New York Republican State Committee to call for two delegates from each representative district, for the ensuing State Convention, it would appear that this is a change from the former convention, adopted against the wishes of a large proportion of the party. For it is no so. It is only to adhere to the old custom—two delegates having heretofore been chosen from each district. Those who wished to change to a new and more delegate system thought that it would have a tendency to consolidate the party as it would do away with the custom in some districts of electing one delegate from those who were formerly Whigs, and one from those who were formerly Democrats. And we think here was found sufficient in this view of the case. If a small majority desire support from the Republican party, from the democratic citizens, and if he becomes a Republican, let him forget that he ever had any other party name. We go against any proposition which tends to establish sections or distinctions in the Republican ranks, which will act upon an equal footing. In the case of New York, the State Committee may, however, be justified in recalling to insure a union and establishment on what is a large portion of the party are opposed to a change.

Douglas disarming the Dred Scott Decision.—We learn by a telegraph of the evening papers, that Judge Douglas in Chicago spoke at length on the Dred Scott decision was received by telegraph. He *expressed himself decidedly in favor of that decision.*" Of course other anti-Lecompton democrats do the same. Bion Bradbury if he goes to Congress, will vote to sustain and carry out the doctrines of the decision, as the voters of the Sixth district will find to their cost, if they are so foolish as to elect him.

Convention at Kendall's Mills.—We understand that the running time was to be changed on the Lower Kennebec road, on Monday, 12th, so as to make the connection at Kendall's Mills.

WASHBURN'S ORATION.—We shall publish in our daily of to-morrow, (Wednesday) and in our next weekly, the substance of the Address upon *the Resources, Condition and Wealth of Maine*, delivered at the Oldtown celebration on the 5th inst, by *Hon. Israel Washburn, Jr.* It should be widely circulated by those who have the interests of our State at heart. Extra copies may be had, if ordered to-day.

DEATH OF ANOTHER REVOLUTIONARY VETERAN.—We learn from a correspondent of the Jeffersonian, that Mr Isaac Cobb died in Alna June 24th, at the age of 96 years 3 mos. His mental and bodily faculties in a remarkable degree, and retained up to the close of life. He was one of the few who having voted for Washington for President seventy years ago, lived to vote for the Republican candidate in 1856.

DEATH ANOTHER CASE OF DROWNING.—We learn from Colonel Norcross, that Charles Tarr, aged 21, a son of Mr. James Tarr of Monson, was drowned at that place while bathing on Sabbath last. The particulars of the accident are not known.

SERIOUS ACCIDENT AT THE HILL MILL.—We learn that on Sunday morning the dam of the Hill Mill in Lewiston gave way, and the water pouring down against the foundation of the building with great force. The basement was so injured that the entire end sank perceptibly, leaving a large crack across the whole width of the building. The lower story was flooded with water, and great damage was done to cloth, machinery, &c. The damage to the building and stock will reach nearly $25,000.

ORDINATION.—Rev. W. H. S. Ventriss, a graduate of Harvard, was ordained to the Gospel ministry on Thursday evening, at the First Baptist Church, in Portland. He is to labor with the Society at Paris Hill.

A reporter of the Boston Journal finds fault with Gov. Morrill for continuing in the practice of his profession so far as to enter Court and argue a few cases in a while Governor. Is not this a little too new? And will not the mass of the people think quite as well of him for it? If the law is responsible, why not a Governor practice it? But not do something. Fifteen hundred dollars a year will hardly allow him to do nothing but be Governor. Put our part, we should think all the better of a farmer, lawyer, physician or editor, who on being elected Governor kept right along in his business the same as ever. Don't be more nice than we are, Mr. Reporter.—*Augusta Banner.*

THE MEDICAL AND SURGICAL REPORTER.—The second number of this professional has been published, and so far as an unprofessional critic can judge, gets high promise of future and enduring usefulness. The articles are prepared with care, are ably written, and item generally have a fair character about them. The address delivered by Dr. Gilman Dirsen, at the late meeting of the Maine Medical Association is printed in the present number.

LIFE INSURANCE.—We learn that the late Edwin Plummer of this city, had a policy of life insurance upon his life for the benefit of his child, for the sum of $2500.—*Portland Argus.*

FIRE AND SWINDLING.—A young man was arrested in Farmington on Monday of last week charged with fraud and swindling. In representing himself as an agent of a manufacturing company, and purchasing a quantity of woolen of a down East lady, promising to pay as his employer remitted funds. This wool he immediately sold in the village for cash, and was about to decamp with the proceeds, when he was arrested and, after an examination, bound over. Failing to get bonds, he was sent to jail.

POLICE COURT, July 3rd.—James Duffy for drunkenness and disorderly conduct on the 6th of July was fined $5 and costs.

On complaint of Cyrus Dwinel, W. N. Soper and — Clark were arraigned for alleged larceny of two axe blades belonging to complainant. The Recorder adjudged the defendants guilty, but they appealed and gave bail.

We are informed that a man by the name of Wilber, who was busily engaging the guns on the 4th at Exeter, had by some unfortunate circumstance, one of his legs blown off, the arm torn off which, and was otherwise awfully mangled. It was thought that he would not live.—*Calais Advertiser.*

The crops at the Eastward are suffering very much from want of rain. The hay crop will be largely deficient.

BAPTISMS.—Ten persons were baptized by Rev. Mr. Carter, at the Second Baptist Church in this city on Saturday last, and seventeen received into the church.

For the Whig and Courier.

The Fifth at Bucksport.

Mr. Editor.

As some of our citizens think a more extended report of our recent celebration should be furnished, will you give place to the following?

The occasion was the Pledge of a new Engine house for Torrent Company No. 2.

Before noon a procession was formed under the direction of L. A. Bradley, Esq., and his aids, in the following order:

1st—A wheelbarrow of cinders.
2d—The Bucksport Cornet Band.
3d—Torrent Engine Co.
4th—Fountain Engine Co.
5th—Public Schools of the First District, with appropriate banners, and under the direction of their Teachers—Misses Bailey, Wescott, Cobb, Cousins and Pillsbury.
6th—Citizens in general.

Marching through several streets, the procession went to the wharf of the H. Sanford, where Torrent Company raised Eagle Co. No. 3 of Bangor, accompanied by the Clarion Band,—and proceeded to the new Engine House, where the following order was observed:

1st. The delivery of the House by Mr. Pillsbury, in behalf of his Building Committee, with the following address:

Mr. Foreman:

You and I meet here, the 82d anniversary of a great nation's independence, not in our individual capacity, but as Representatives.—You as the representative of the Fire Department, and I in behalf of the Building Committee, as the representative of our fellow citizens in council. It is this representative relation which gives to our present positions all the importance. I am here to pass over to you and your associates in trust, and you to receive and appropriate to its uses—this Engine House.

Yours, sir, is an important position, yours are responsible duties. The high estimate our fellow citizens put upon this position is seen in the expenditure and effort to furnish facilities and accommodations to your Department.

The day for the ceremony of dedication has been fortuitously selected. It was only when the attempt was made to enslave the Colonies that Lancock and his patriotic associates struck for independence; no resistance to the element, against which it is for you to battle is provoked *only* when it rises above its lawful purposes and assumes our mastery. To prevent and to subdue this ascendancy you are put in the foreground. However powerful when a fire, may you be able as were the fathers of our liberties, to conquer!

The Committee have endeavored to anticipate as well the *accommodation* as the wants of your department, and to make this building all that you could ask for. But we seek no praise. We have only done our duty. Tho' we ask it not for ourselves, we think praise is due however, to other parties. The architect (Mr. I. Emery) has spared no pains in the adornment of the exterior and interior building. The contractor, (Mr. T. Wiley), to whom it soon became evident that the job would not pay, has stated none of his ardent wish and careful endeavor to meet public expectation and the approval of the Fire Department.

Our fellow citizens in common are and that also, in our most grateful bow for the appropriation to build a House so suitable in location, in capacity, in arrangement and in finish. Nor shall I we forget individuals who have contributed to the improvement of the building. And, though last, yet not least, I wish to ask—assured of a hearty popular response, for a grateful memory, on this occasion, of our respected fellow citizen deceased.

To Joe. B. Folsom Esq., we refer last, not because his hand is least visible in this structure, but because in tracing back its history we find in his "Will the first moving cause. His Biography is part and parcel of the records of the commercial and mercantile business of our town and village. Diligent and prudent, he was successful; and, having accumulated wealth, by his legacy he provided for a want of the place of his toil and of his prosperity; and we are here to-day to complete in spirit if not in letter, the investment proposed by his Will. The name of J. B. Folsom must ever be part of our grateful memory of the foundation of this building.

In addition, Mr. Foreman, in the plenitude of the occasion that this property goes in trust, into such hands as will justify our utmost confidence of its suitable care and appropriate use, of which the strong arms and willing hearts associated with you are the pledge.

May your Hearth ever be to you a mine of wealth, and plying your Tub with rich deposits, will may your discharge pipe discount freely upon every demand, and may your arms Mr. Foreman and Gentlemen of No 2, ever be strong in man the Brakes, may those for the care of whom property you will ever have a watchful eye, a ready will and a strong arm, appreciate your services and provide for your convenience as now in the presentation of the house; all of which—that floor for your Tub, that Hall for your business transactions and social greetings, that balcony for your promenade, that tower for your Hose, and those poles for your Banner;—I repeat it, all of which, in behalf of our fellow citizens in council, and by authority of the building committee, I now take pleasure in committing, Mr. Foreman, to your associates, to your trust, to be dedicated and appropriated to the purposes for which they are designed.

To which the Foreman, Capt Snowman, replied:

Gentlemen of the Building Committee—We accept, in trust, the property offered by you in behalf of our fellow citizens. We are gratified that the Fire Department has been so amply and substantially provided for. We see, sir, all the force of your estimate of the importance of the social position of the Company. It presents, as well as the force of your reference to the popular estimate. With this building, suitable in all its parts and arrangements, before us, we cannot fail to be convinced that our fellow citizens feel the demand for an active Fire Department. We reciprocate that feeling, and shall endeavor to show our appreciation by suitable care of the trust, and by its use for the protection of the property of those you represent.

"Our hub, our Hose, our hearts and our hands shall ever be at their service when yonder bells, or the cry of *Fire*, shall admonish us that their property is in danger, and our Brakes shall ever come down with a will.

It shall be our constant endeavor to honor the flag we shall on this anniversary of our nation's freedom unfurl from those towers.

All this we accept with a cheer, and proceed to deduct as to the purposes designed by the Legislature, by the Building Committee, and by our fellow citizens.

The three engines were then put in play, and their five streams, two of them from the tops of the towers, followed by three streams from the Eagle, made a very pretty display of water.

From the balcony T. C. Goodman Esq. then very appropriately addressed the large audience. A. W. spoke at some length against any partisan use of the day, and claimed that for the existence of national evils all were too responsible to justify very severe vituperation; and that self-humiliation is called for rather that self-glorification. He spoke of the importance of a well organized Fire Department, and of the historical improvements of the Department, and of the facilities for extinguishing fires; and paid the several engine companies present a very high compliment. He referred appropriately to the several parties having to do with the new House, and especially to Mr. Folsom whose Will provided for the means. The speech was nearly half an hour in length.

The Company invited guests and citizens then marched to Mr. Bradley's new Hall where a much sumptuous dinner was furnished by Mr. Patterson of the Maine House, which was discussed most ably and with the very best appetites; after which the following toasts with several others were announced by S. B. Swazy Esq. to some of which appropriate responses were made; and thus, at about five o'clock, terminated, without accident and with the best of feeling in every heart, the exercises of the day:

1st. *The Day we celebrate*—Inaugurated by patriotic statesmen, and successfully defended by patriot soldiers. May patriots never be wanting to perpetuate the principles which gave it birth.

2d. *The President of the United States.*

3d. *Our Visitors*—In their erratic flight they have frequently alighted in our midst; and their presence to-day we consider a special favor. We fall to meet them on "Eagle's" wings, but we doing them with a *Torrent of* intent on.

4th. The memory of the late Thomas R. Folsom, whose munificent bequest has enabled us to erect an Engine House, both well adapted to our wants and ornamental to the village.

5 h. *Our Engine House*—Combining beauty with utility it stands to-day, and may it stand long, a monument to the genius of its architect, the patience of its supervisors and the skill of its builders.

6th. *Our Building Committee*—They have faithfully performed their duty, and to-day witnesses their triumph over difficulties which would have disheartened less patient men.

7th. *The Architect of our Engine House*—To whose ingenuity we are indebted for a beautiful and commodious building. May his future labors receive that reward which his talent so richly merits.

8th. *The Firemen Here assembled*—As Firemen and citizens performing a double duty. May they faithfully perform all their duties. May their Hands ever be invincible, their energies unbreakable and may their Fountains never dry up.

9th. *The Founders of Bucksport*—Men of foresight and endurance dead yet living in their works, may their descendants cherish and keep memory and imitate their virtues.

Some valentory sentiments and conundrums were announced, and a Poem was read by Mr. Snow. A great deal of good feeling was reciprocated, and at about 8 o'clock the Torrents and their guests left the tables, richly laden still.

No accident occurred during the day, nor does your reporter know of ought to mar the kindest feeling that appeared every where to pervade the assembled multitude.

BUCKSPORT.

A post office clerk in Chicago came near drowning the other evening, and was asked by a companion what he thought about during the critical period. "Thought about," said he, "I was thinking what the morning papers would say about it."

SPECIAL NOTICES.

Attention, Adopten Citizens!

A GENERAL CONVENTION of the Adopted Citizens of Maine, will be held at PORTLAND, on TUESDAY, the 17th of AUGUST next, at 10 o'clock A. They made signals, but the B. J. have no code could not understand them. On the evening saw a large steamer bearing down upon the others. Could not make out whether she was English or American. Was a large double deck frigate with sing wheels, mast aft, passed within a mile, and a large hulk at within half-a-mile of the other. The large steamer was bearing down for the strange, when they were lost sight of.

Judge Culver was completely vindicated, and he and Mrs. Brown, the lady with whom he was charged with improper conduct, were pronounced to be fit members of any Baptist Church.

Distressing Affair. We are pained to learn that there are good reasons to fear that Mr. George F. Pearson, son of Mr. George W. Pearson, of the Revere House, destroyed his liberty drowning last night. He has been under medical treatment for a long time for dyspepsia, accompanied at times with great perversion of mind. His physician, we are informed, has feared for some time, that his disposition hypochondria would result in insanity. He is now missing.—Boston Transcript.

The Democracy of Boston had a dinner on the 4th, for which most $10 each! Only the select three of the Democratic party could afford it. They may do this for a dinner.

Dr. Lees has withdrawn his charges against John B. Gough,—that he was addicted to narcotic drugs on his excursion in London, and terminated the libel suit brought against him by so best, thus a verdict of 3 guineas for costs. Dr. L. was the lecturer on temperance for the "all hoos" and Gough for the "London Times versus Lemon."—the latter is based on "moral delusion," the former on probable dim brain.

A Brave Woman. On Wednesday evening of last week, as Mrs. Erb was returning to her residence in a wagon after supplying her customers in Harrington, N. J., with milk, a fellow seized her horse's head and demanded her money. Seized she had none, whereupon he laid his arm on her shoulder, and intimated to get into the wagon, but Mrs. Erb quickly drew a hatchet which she kept for ranging up her customers, and boldly struck the head with it, causing the fellow to retreat. She then whipped up her horse and escaped!

Cholera in London.—The Times is making great work in London. Asiatic cholera has appeared in the great metropolis caused by the noisome stench arising from the river, which is the receptacle of all the filth of the city, and some fears are entertained. Parliament, which meets near the river bank, can stand it no longer, and it is said that it must either remove or be prorogued immediately.

THE CLIPPER SHIP "GOLDEN ROCKET,"
OF 600 Tons, now on the Stocks in Messrs. Cooper's Ship Yard, will be constructed expressly for a Packet, to run between Bangor and San Francisco, and will leave Bangor for that place about the middle of October next. It is confidently expected the Golden Rocket will make one of the quickest passages ever made from this State—as she will be commanded by one of the most experienced Ship Masters, who has already made three voyages to that place. The Golden Rocket will take out a small quantity of heavy freight in her lower hold, which will put her in perfect ballast or sailing trim (a part of the freight being already engaged.) She will have spacious "between decks," and houses on deck, fitted up expressly for women and children, with a large complement of female servants expressly to look after their wants—which arrangement will give those wishing to forward their wives or children to California an opportunity never before offered. Women who are obliged to labor for a maintenance, and who would wish to seek a home on the golden shores of California, where their services are better appreciated and better paid for than any other place on the Globe will find this a better opportunity than ever before offered in the United States—more especially in its accommodations they will have for the price they pay. There will be several commodious Cabins in the ship, and families or ladies desiring extra accommodations, will be furnished with State Rooms, &c., equal to those in first class steamers. Quite a large number of passages have already been engaged for men, women and children. The ship leaving here in the fall, will bring her off Cape Horn in midsummer, which will make the trip a pleasant one—and arriving in San Francisco about the first of February, the time when mining operations commence, will meet the wishes of a large number of those bound to the shores of California. Those wishing to write to their friends in California, and get returns, will have ample time between this date and the time the ship sails. The Golden Rocket will touch at Rio and Valparaiso on her passage out. Those wishing to take a passage or Freight Money, can have it by giving satisfactory security. Passage $150. For Freight or Passage, apply to
